Omnicell®

SureMed by Omnicell 30-Day Time Pass Blister Cards

Convenient, Cost-Effective Multimed Packaging

SureMed® by Omnicell® 30-day blister card packs are designed to optimize the use of time pass multimed adherence packaging. This option enhances pharmacy workflow and facilitates ease of use for patients and caregivers.

These cards are a cost-effective option for patients with 30-day prescriptions. The 6x5 format reduces the number of packs needed annually compared with the weekly 7x4 card format.

When used with Omnicell Guided Packing software, pharmacies can print directly on the card, including logo and compliance prescription information in an easy-to-read format.

Benefits

- Streamline infection control procedures – disposable product means no plastic sleeves to sterilize
- Simplify billing practices – ensure a full script is filled at the time of packaging
- Verify packs more quickly – single time pass makes it easier to scan contents, and fewer packs need to be verified vs. with weekly multidose packs

Key Features

- USP 671 Class B Compliant Package
- Up to 12 medications per time pass with Guided Packing software
- Pharmacy branding can be directly printed on the cards
- Flexibility to print vertically or horizontally
- Bold color scheme to aid caregivers and patients in identifying correct time and medications
- Perforated blisters
- 100% disposable material

Requirements

- Guided Packing subscription
- Epson WF-C8190 printer (A-0590C)
- 30-dose cards and blisters (302-96GLB and 209-30)
